# Jake Wheeler CS415 05/02/2017 PA4 - Matrix Multiplication

## Overview

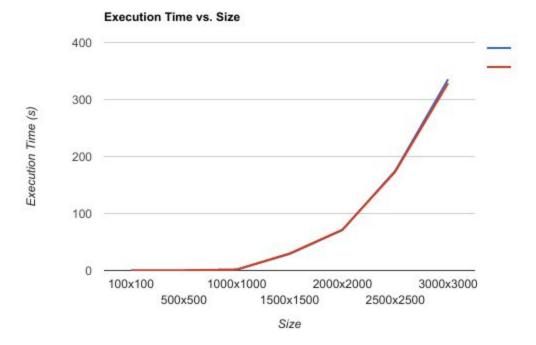

This project focuses on the multiplication of square matrices. The program will be implemented and timed in a sequential method as well as a parallelized method, and their times compared. An example of a square matrix multiplication can be seen below, in Figure 1.

$$\begin{pmatrix} A & B \\ C & D \end{pmatrix} \times \begin{pmatrix} E & F \\ G & H \end{pmatrix} = \begin{pmatrix} AE + BG & AF + BH \\ CE + DG & CF + DH \end{pmatrix}$$

Figure 1, Example of square matrix multiplication. (Source: StackExchange.com)

# Sequential

The sequential implementation of matrix multiplication shows a superlinear execution time, that is, as the square size of the matrices increase, the execution time increases faster and faster. The execution time vs. time graph should indeed look very similar to a graph of n^2, because essentially, the sequential implementation is doing size^2 calculations. The execution time vs. size graph can be seen below, in Figure 2.

**Figure 2:** Figure 2, above, shows the relationship between two matrices of size <size>^2 being multiplied together, and the execution time in seconds..

|            | 100x100  | 500x500  | 1000x1000 | 1500x1500 | 2000x2000 | 2500x2500 | 3000x3000 |
|------------|----------|----------|-----------|-----------|-----------|-----------|-----------|
| Time 1 (s) | 0.001023 | 0.187337 | 1.59314   | 28.9215   | 70.8782   | 174.88    | 335.39    |
| Time 2 (s) | 0.001035 | 0.182211 | 1.59539   | 29.8491   | 71.5264   | 173.092   | 328.41    |
| Time 3 (s) |          |          |           |           |           |           |           |

**Table 1:** Table 1, above, shows data for various tests logging the execution time of sequential matrix multiplication given different size square matrices.

# Parallel Timing - TODO

|            | 120x120   | 480x480 | 1020x1020 | 1440x1440 | 2000x2000 | 2480x2480 | 3020x3020 |
|------------|-----------|---------|-----------|-----------|-----------|-----------|-----------|
| Time 1 (s) | 0.0014297 | 0.05435 | 0.75354   | 1.91658   | 24.9584   | 57.9864   | 97.1866   |
| Time 2 (s) | 0.001561  | 0.05782 | 0.6651    | 1.93511   | 27.4681   | 56.3515   | 99.6854   |

### TODO

Finish parallel section of report
